## OCÉ COLORWAVE 500 PRINTING SYSTEM

### The most productive all-in-one large format system—monochrome and color

Push the boundaries of your large format printing with the Océ ColorWave 500 printing system, a monochrome and color printer, scanner, and copier in one convenient single footprint. Gain a competitive edge with distinctive high-quality drawings and presentations without the need for expensive coated paper. Save on space, supplies, and maintenance by using one system for both color and monochrome work. With its intuitive design, the Océ ColorWave 500 printer is one of the easiest to use walk-up printers.

Like other members of the Océ large format family, this printer works just like a tablet thanks to the Océ ClearConnect user interface. That means your staff will intuitively know how to use it when they see it for the first time. And true to its name, Océ ClearConnect technology makes the right connections to get the job done. Print on the way to your next meeting or from a job site. Keep work moving even when you can't get to the printer.

### One printer for all your monochrome and color needs

The Océ ColorWave 500 printer has all the advantages of our proven award-winning Océ CrystalPoint® technology in one compact system. Ideal for both small workgroups squeezed for space or central operations that want to

add a productive large format system. Built for speed, you can print, copy, and scan at the same time—without sacrificing productivity or quality. Easily process large and complex files with the Océ ColorWave 500 printer. You can handle monochrome and color—CAD, GIS, and full-color graphics on different kinds of uncoated media such as recycled paper as well as Tyvek for tear resistant prints.

Produce up to 225 D-size monochrome and color prints per hour—to meet a rush deadline without breaking a sweat. This system can hold up to four media rolls and prints come out dry, cut-to-size, and ready to use. With the optional integrated folder, different folded packages can be prepared and printed right from your desktop.

The Océ patented Océ CrystalPoint technology ensures robust, waterfast prints with sharp lines, high readability of fine details, and smooth, even area fills. The high-quality prints are consistent over time on different machines and have a unique silk-shine look and feel, independent of the type of media you use.

### Effortless Operation

Help your staff spend more time on what's important and less time handling documents with the Océ ColorWave 500 system—one of the fastest and easiest printers you will find. Our Automatic Print Assistant automatically selects the print mode, image position, and best fit media roll to save time. Print on up to four rolls of media to produce

**1 THE MOST PRODUCTIVE ALL-IN-ONE LARGE FORMAT SYSTEM**

Save on space, supplies, and maintenance by using one system for both color and monochrome work. With its intuitive design, this engine is one of the easiest to use in the industry today.

**2 EFFORTLESS OPERATION WITH THE OCÉ CLEARCONNECT PANEL**

The Océ ClearConnect panel works like a tablet. Easily control the printer with your fingertips using simple and familiar screen movements. Swipe, spread, and zoom in on details. Check that documents are correctly positioned using the live preview to avoid errors.

**3 SUPERIOR COLOR COPYING AND SCANNING**

Océ Color Image Logic technology automatically compensates for wrinkles and light colors to produce superior results. Originals are inserted face-up and paper width is detected automatically.

**4 NEAT DOCUMENT DELIVERY AND STACKING**

Get neatly collated and stacked documents of up to 75 E-sized prints on the top delivery tray. Sets are neatly stacked on top, ready to go.

**5 RELIABLE PERFORMANCE**

Océ patented Océ CrystalPoint technology ensures robust, waterfast prints with sharp lines, high readability of fine details and smooth area fills. High-quality, consistent prints have a unique silk-shine look and feel, independent of the media used.

**6 SUSTAINABLE AND SECURE SYSTEM**

With Océ CrystalPoint technology, you have the ability to print on recycled medias with high-quality results. The unit emits no ozone, dust or odor. The system is constructed of durable and solid parts and designed to be recycled and re-used.

**7 TIME SAVING WORKFLOW**

This system is designed to make it easier to prepare, produce, and manage complex files ranging from AEC and CAD all the way to large graphic files. Advanced tools make it easy to get documents when and where you need them.

large volumes and sets without interruption. Sets are neatly stacked on top, ready-to-go.

The Océ ClearConnect touchscreen works like a tablet so there is little to no learning curve. The simple layout, intuitive design, and detailed preview functions help users get their prints faster, without errors, even when they are stored in the cloud or have just arrived in an email on their mobile phone. Users can even organize prints in their Personal Smart Inbox to save time.

The Océ ClearConnect software suite also gives you more flexible and effortless ways to submit and manage files. Print from your desktop via Océ Publisher Select™ software to manage complex document sets. You can even print from the cloud, your smartphone or tablet when you are rushing to a meeting. Knowing you can print when you need to, takes some of the stress out of the work day.

**Sustainable and ecofriendly system**

When you work side-by-side with your printer, you want to know that it's people and planet friendly. The Océ ColorWave 500 printer is designed to create a healthy working environment. The unique Océ TonerPearls® toner ensure that there's no fine dust, no odor, and minimal waste disposal. It can print on recycled and carbon neutral media and has certified de-inking properties.

The Océ ColorWave 500 system is based on proven Océ technology found in thousands of systems worldwide. Constructed of durable and solid parts, you get dependable uptime with fewer jams, shorter downtime, and fewer service calls.
